-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-26, drawn to a system and method enhancing the quality and efficiency of the clinician-patient encounter, classified in class 705, subclass 2.
- II. Claims 27-38 and 44-45, drawn to a method for providing guidance to a clinician for determining a diagnosis and selecting treatments based on authoritative guidelines without constraining the independent practice of medicine by the clinician, classified in class 705, subclass 2.
- III. Claims 39-43, drawn to a system for the collecting, integrating, and communicating information related to providing health care, the system linking the clinician with medical records, payor guidelines, reference information, and service providers, classified in class 705, subclass 2.

The inventions are distinct, each from the other because of the following reasons:

Inventions I through III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such a system and method enhancing the quality and efficiency of the clinician-patient encounter. Invention II has separate utility such as a method for providing guidance to a clinician for determining a diagnosis and selecting treatments based on authoritative guidelines without constraining the independent practice of medicine by the clinician. Invention III has separate utility such as a system for the collecting, integrating, and communicating information related to providing health care, the

system linking the clinician with medical records, payor guidelines, reference information, and service providers. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for each group is not required for the other groups, and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert W. Morgan whose telephone number is (571) 272-6773. The examiner can normally be reached on 8:30 a.m. - 5:00 p.m. Mon - Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Thomas can be reached on (571) 272-6776. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
